

MaxiSYS 906TS Diagnostic System & Comprehensive TPMS Service Device

Mfr: Autel

Part #: AULMS906TS

Features and Benefits:

- 8" LED touch screen
- Quad core 1.3 GHz processor
- Android based software / Kit Kat OS
- 8MP camera / 32GB solid state drive
- 10000 mAh lithium-polymer battery

The wireless MS906TS is an industry first combining advanced diagnostics with complete TPMS functionality. Now technicians don't need a secondary TPMS device to trigger, program, or relearn Autel MX-Sensors and quickly test all vehicle systems with one ultra-fast, lightweight, touch screen tablet.
